

Serial No. 10/634,896

Docket No. P-0572

Amendment dated December 22, 2005

Reply to Office Action of August 22, 2005

Amendments to the Specification:

Please add the following new paragraph between lines 10 and 11, on page 15.

Generally, the first and second bits of the selected long or medium temporary cell ID code are punctured to generate a primary cell ID code.
